

Sponsorship Proposal

Prepared by
**Team Genesis - IEEE Global
Robot Championship
Malta 2026**

Presented to
Prospective Sponsors

October 2026

Support Team Genesis as we build a robot for the 2026 championship. Your contribution helps turn student engineering into a working competition entry, with recognition through our team and digital channels.

Genesis**

About Us

4TH PLACE OVERALL 2024

The IEEE Global Robot Championship Malta 2026 is an international student robotics competition organised under IEEE Region 8 Student Activities. Teams design and build robotic systems to complete a series of engineering and strategy-based challenges under competitive conditions.

Genesis is a team of engineering students from the University of Malta. Building on the experience gained from our previous robot, which achieved 4th place overall, we are developing Genesis with the goal of achieving an even stronger result at the 2026 championship.

Meet Our Team

Miriam Cini

BSc Student in Electrical
and Electronics Engineering
University of Malta

Merve Guneyhan

MSc Student in
Microelectronics and
Microsystems
University of Malta

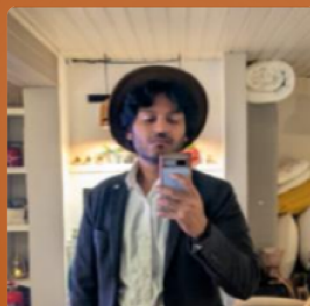

John Paul Bayliss

BSc Student in Computer
Engineering
University of Malta

James Gatt

MSc Student in
Microelectronics and
Microsystems
University of Malta

Ankit Kumar

Completed Master's thesis
on Artificial Intelligence and
Internet of Things at the
University of Agder

**From Malta.
Built to compete.**

EVENT DATE

28-29 November 2026

LOCATION

Montekristo Estate, Malta

OUR CATEGORY

Arena – 4 Games

The Championship and Our Mission

[IEEE Robot Championship Official Website](#) 

The IEEE Global Robotics Championship brings together students, engineers, and researchers from across the international IEEE community. Beyond the competition, it offers opportunities for networking, collaboration, and the exchange of ideas, connecting emerging engineering talent with industry and Malta's innovation ecosystem.

By partnering with Team Genesis, your organisation supports a student-led engineering initiative that turns academic knowledge into practical experience through robot design, development, and testing. The partnership offers visibility among students, educators, and technology enthusiasts while demonstrating your commitment to engineering education and innovation. It also creates opportunities to build relationships with future engineers and researchers, encouraging collaboration that can extend beyond the competition.

Why partner with Genesis?

International **Visibility**

Connect your brand with a team competing in an international IEEE robotics championship, with opportunities to reach student and engineering audiences beyond Malta.

Connect with Future **Engineers**

Engage with students, educators, and emerging engineering talent through Team Genesis's outreach activities and through the event.

Company **Recognition**

Company visibility and recognition across Genesis social media, outreach activities, and the Developing Genesis film.

Sponsorship Package

SPONSORSHIP BENEFITS	SILVER €500	GOLD €800	PLATINUM €1,200
Website logo and company link	Included	Included	Priority
Team apparel logo	Standard	Larger	Prominent
Robot logo	-	Standard	Prominent
Dedicated social content items	1 total	2 total	3 total
Film closing-credit logo	Included	Included	Included
Dedicated film acknowledgement	-	-	15-20 sec
Post-event photos and results	Included	Included	Included

Gold includes all Silver benefits. Platinum includes all Gold benefits. Higher-tier logo placements and content totals replace the corresponding lower-tier allocation.

Social content will be shared on Team Genesis's Instagram, Facebook and LinkedIn accounts. The same content shared across multiple platforms counts as one content item. The film and post-event update will be delivered within eight weeks after the championship.

Final logo sizes and positions are agreed before production, subject to available space and competition requirements. Custom financial and in-kind partnerships are welcome.

Thank You!

Your support can help us turn our design into a competition-ready robot and give our team valuable hands-on engineering experience. We invite your organisation to partner with Genesis through funding, components, fabrication support or technical expertise. To explore this sponsorship opportunity further, please don't hesitate to contact us and we will set up a meeting where we can discuss further.

Thank you for considering Team Genesis. We would welcome the opportunity to discuss how we can work together.
